Re: **Amerlock 400 NS**
Referentie: MdH / 14082009/01

To Whom It May Concern,

We, PPG Protective and Marine Coatings Europe, do confirm the following that the The slip resistance results obtained for Amerlock 400 NS as requested by LUL (April 2006) were as follows.

Test in accordance with BS 6044

Measured value = 48 Units (Slip risk = low)

Slip Risk Classification based on Pendulum Test Value (HSE/HSL Adopted Assessment)

<u>Pendulum Value</u>	<u>Slip Risk</u>
0 -24	High
25 -35	Moderate
36 – 64	Low
65+	Extremely Low

Kind regards,

Marcel de Haan
