

Rust Converter

For use on iron and steel surfaces where all rust cannot be fully removed. This water based combined rust converter also acts as a primer. Suitable for use in domestic painting applications as well as for industrial and marine environments.

- Easy to apply and clean up
- Works in damp conditions
- Low odour
- Reduces preparation costs
- Non hazardous to store and use
- Environmentally safe
- Ideal on very rusty surfaces prior to painting with Hammercote

TECHNICAL & SPECIFICATION SERVICE

For full application details or technical and health & safety information, please read the relevant product data sheets which are available from our sales office and are downloadable from our website www.coo-var.co.uk.

The Coo-Var Technical Services Department can provide a wide range of services, information and back-up to support our customers and end users.

To arrange for a site visit and specification, please contact us.

COO-VAR®
PAINTS, PRIMERS AND SPECIALISED COATINGS

Hammercote

Hammercote Smooth

Hammercote is a premium quality durable coating which provides a glossy smooth finish.

As a rust resistant coating, this provides a long lasting finish for metal, ironwork and many other suitably prepared surfaces.

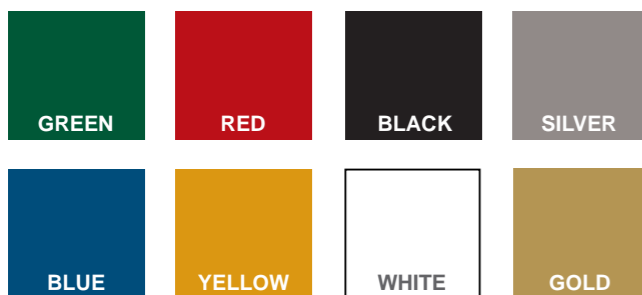

With this coating being fast drying and suitable for interior and exterior use, Hammercote is highly versatile, easy to use and convenient.

Suitable applications include metal railings/gates, radiators, garden furniture, metal drain pipes, bicycles, boats, trailers, tools, car components; the list goes on.

Hammercote properties include:

- Hard wearing
- Rust resistance
- Fast drying
- For interior and exterior use
- Heat resistant up to 150 °C
- Can be used without a primer
- Provides a hard, durable film (hardness increases over several days after application)

**THE
SIMPLE
EFFECTIVE
SOLUTION**

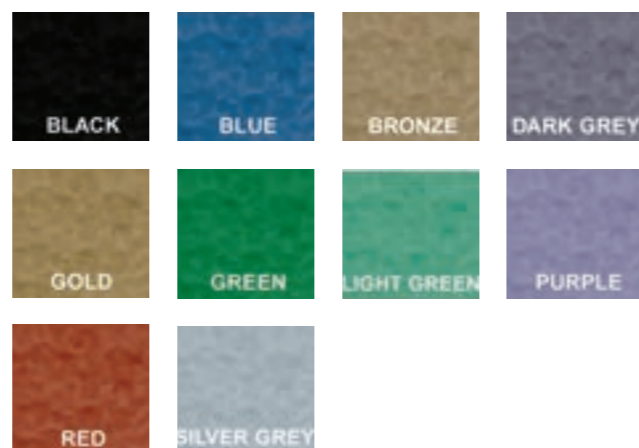

Coo-Var have over 100 years experience manufacturing specialist paints for most situations and now have a number of products to protect and decorate metal surfaces. These high quality products will help your metal brave the storms and last as long as you need them to.

Hammercote Hammered

Has all the properties of the Smooth version, but provides a hard wearing glossy metallic finish with a quality hammered effect.

Hammercote Satin

Provides a quality satin finish with all the properties of the smooth version.

Hammercote Thinners

Thinners/Brushwash for use with Hammercote Hammered (do not use as a thinner), Smooth and Satin.

This brochure takes you through Coo-Var's products for metal, including the popular Hammercote enamel paint, where they are best to be used, how to use the products and their technical information (back page).

At any point in your decision or even after the coating is applied, you can call Coo-Var Technical Services to get advice and to answer any questions you may have – 01482 328053.

Hammercote Aerosols

All the properties of the other Hammercote products but in an aerosol. Easy to apply and no brush to clean!

All Metals Primer

Coo-Var All Metals Primer is fast drying and can be overcoated with a large range of top coats.

Will enhance the performance of Coo-Var Hammercote and is an ideal primer for all metal and galvanised surfaces.

- Suitable for interior and exterior use
- Fast drying
- Ideal for use on iron, steel, aluminium, brass, copper, galvanised surfaces, and many more.

Water Based

NOTE: Always read the instructions as well as health & safety information before applying any coating.

Anti-corrosive Metal Primers

Zinc Phosphate Primer

A high performance metal primer for use on most metal surfaces including steel, iron and aluminium.

Ideal for use when wood and metal surfaces are combined in the same structure as it will prime both surfaces.

- A high durability primer - ideal in coastal areas
- Dries to a matt finish
- Ideal for fire escapes, window frames, metal gates, metal garage doors, etc.

NOTE: Not for use under Coo-Var Hammercote

Red Oxide Metal Primer

A good general purpose metal primer for use on ferrous metal surfaces. Has good anti-corrosive properties and is suitable for interior and exterior use.

NOTE: Not for use under Coo-Var Hammercote
