

Description

Centrecoat R09 Heavy Duty Surface Cleaner is a biodegradable heavy duty cleaner and degrease. Formulated to remove heavy contamination from porous and hard substrates. Provides deep penetration to lift even the toughest stains.

Ideal for unprotected stone and concrete surfaces including floors. Excellent at cleaning extreme oil and fuel stains from porous substrates. Also provides superb degreasing properties.

- ▶ Water based - Not subject to Work Exposure Limits
- ▶ Biodegradable
- ▶ Low odour
- ▶ Ideal for interior or exterior use
- ▶ Does not damage the substrate
- ▶ Suitable for use as a substrate preparatory before further coatings
- ▶ Removes grime and grease in one application

Application

Always test on a small hidden part of the substrate prior to use. Can be used neat or diluted with water depending on level of contamination. Maximum dilution ratio is 1:20 parts water. Apply via brush or spray. Allow Centrecoat R09 to penetrate the dirt and grease. Agitate with a stiff brush if soiling is heavy.

Rinse clean with clean pressurised hot water. Vacuum up with a wet and dry vacuum. In confined areas use a low pressure hose and scrubbing brush. For stubborn stains allow extra working time. Two applications may be required.

Technical Data

- ▶ Density: 1.10 Kg per litre
- ▶ Freezing Point: -4°C
- ▶ Boiling Point: 99°C
- ▶ Colour: Transparent light green
- ▶ Odour: Caustic
- ▶ Type: Water based alkali

Coverage Rate

Centrecoat R09 can be used as a light duty cleaner diluted 1:20 with fresh water. For more heavily soiled areas, diluted between 1:2 to 1:10 with fresh water.

Clean Up

Clean equipment with clean warm water after use.

Storage

Store away from frost and heat in a dry place: temperature between 5°C and 35°C.

Shelf Life

24 months from production batch date when stored in original unopened container.

Packaging

Available in 1 and 5 Litres
