

### Description

Centrecoat R26 not only cleans and removes naturally occurring dirt and contamination like algae, mould and black spot, but also brightens the substrate. Concentrated liquid to ensure optimum performance.

- ▶ Removes naturally occurring contaminants from porous substrates
- ▶ Does not contain solvents, acids or caustic
- ▶ Works on porous and non porous substrates
- ▶ Will 'brighten' paving and monuments
- ▶ Ideal cleaner for marble headstones
- ▶ Removes atmospheric contamination from roofs
- ▶ Suitable for internal and external use

Suitable for cleaning a wide variety of surfaces including walls, floors, paths, roofs, decking, paving, boats and monuments.

Suitable as a stand alone cleaner but not suitable as a preparation tool prior to painting or without thorough rinsing and a trail application.

### Application

We strongly recommend to carry out a small discrete sample application to test suitability of the product before use.

Apply the product liberally by brush or low pressure hand spray to saturate the contamination. Can be applied to a dry or damp surface. Allow the product to work for 30 minutes for light soiling or 60 - 90 minutes for heavy soiling. Whilst still wet, thoroughly rinse off with clean water using a pressure washer to achieve the best results.

Do not allow to dry out prior to rinsing off. Stubborn or deep staining may require a second application. To brighten paths and walls leave for up to 8 hours before removing.

### Technical Info

- ▶ Colour: Pale Yellow
- ▶ Odour: Characteristic Odour
- ▶ Physical state @ 20C ° : Liquid
- ▶ Specific gravity @ 20° C: 1.02
- ▶ pH: 13.5
- ▶ Boiling point [°C]: 100 °C
- ▶ Density: 1.0 @25°C
- ▶ Solubility in water [vol/vol]: Fully soluble
- ▶ Flash Point [°C]: Not applicable

### Coverage

- ▶ For heavily soiled areas, use neat at 2 - 3m<sup>2</sup> per litre
- ▶ For lighter soiled areas, dilute 1 part Centrecoat R26 with up to 3 parts clean water and apply at 3 to 5 m<sup>2</sup> per litre

### Packaging

Available in 5 Litres

### Recommendations

As with all cleaners this product will struggle with the unique problems caused by heavily contaminated 'York Stone'.
