

### Description

Centrecoat Aqua Anti-Bacterial Hygiene is a tough anti-bacterial acrylic resin based coating designed for application on walls and ceilings in low wear areas. Suitable for application to a wide range of substrates such as plaster, concrete, timber, cement render, previously painted surfaces and more.

Ideal for old or new substrates such as masonry, cement rendering or plaster, concrete, plaster board and wooden panels.

### Benefits

- High durability
- Water based
- Saponification resistant
- Sufficiently breathable (water vapour permeable)
- Hardly permeable to rain
- Excellent weather resistance
- Kills many types of bacteria such as E.coli 0157, Listeria sp., Staphylococcus aureus, Salmonella, Shigella sp and MRSA

### Colour and Finish

Available in White and RAL / BS tinted colours. Semi Matt or Satin finish.

### Application

Apply by brush, roller, conventional or airless spray. 13 to 18 thou tip recommended. Substrate should be clean, dry and sound. Minimum application temperature 8°C. Apply 1-2 coats as necessary.

### Technical Data

- Density:  $\pm 1.5$  g/cm<sup>3</sup>
- Volume Solids: 35 - 46%
- Flash Point: 64% (non flammable)
- VOC: 25 g/l
- Wet Film Thickness: 100 - 125 microns
- Dry Film Thickness: 45 microns
  
- Touch Dry: 40 minutes at 20°C
- Overcoatable: 4 hours at 20°C
- Fully Cured: 1 days at 20°C

### Coverage

Approx 7 - 10m<sup>2</sup> per litre. Coverage rate depends on porosity and texture of the substrate,

### Clean Up

Clean up tools and equipment after use with water.

### Storage

Store between 5°C and 35°C.
