

Description

Centrecoat Fabric Protector delivers protection for all textiles, rugs, carpets and even leather. On all kinds of material such as cotton, velvet, suede and chintz. Is easily and quickly applied, will make cleaning easier, offers protection lasting up to 5 washes, will not change the texture, look or alter the non-flammable qualities of your material, and is excellent value for money. Material treated with Centrecoat Fabric Protector will offset a fabric's ageing and facilitate its care.

Centrecoat Fabric Protector is recommended for all internal and external fabric materials

Benefits

- Can be used indoors and outside
- Penetrates material right through to the weft meaning it can protect and proof fabrics, rugs and carpets against water and oil penetration and all kinds of stains
- Can be applied to vertical, horizontal, inside and outside materials
- Prevents the penetration of water and oily liquids
- Anti-staining, anti-dirt
- Makes cleaning easier
- 100ml can be added to the rinse compartment of a washing machine to 'top-up' protection for fabric materials every 6-12 months
- Non-hazardous and non-toxic
- Invisible once dry
- Easy to use
- Non-flammable

Application

To treat only beforehand cleaned and dried surfaces. To obtain the best look and results on application, Centrecoat Fabric Protector should be shaken before use. Do not apply during rain or frost and when surface and air temperature is $> 10^{\circ}\text{C}$ and $< 30^{\circ}\text{C}$. Do not dilute or mix with any other product.

Try first on an inconspicuous area to test the product's effect on the material's colour. Apply the product to a surface that is clean, dust-free and dry. Use neat, do not dilute. Mist using a low pressure (2 bars) sprayer at a distance of 30 cm from the surface, using one sweeping action. The material should not be sprayed to saturation point. Leave 24 hours to dry. Effect will best be observed after 1 to 2 days.

Technical Data

- A water based product containing a high performance fluorocarbon
- Physical State at 20°C : Liquid
- Appearance: Colourless
- Odour: Mild
- pH: 6.5-7.5
- Boiling point: 100°C
- Density: 1.01
- Solubility in water: Fully soluble
- Flash Point: N/A
- VOC: 0.00%

Coverage

Coverage depends on the porosity of the material. The figures below are approximate and should be used only as a general guide:

- Leather: 20 to 25 m2
- Carpets: 15 to 25 m2
- Textiles: 15 to 20 m2

Storage

Keep in a dry place (between 5°C and 30°C).

Shelf Life

24 months following the production date when kept in the original unopened container.

Packaging

Available in 5 Litres
