Suredeck®

Anti Slip Decking Protector

Coo-Var Suredeck is a high quality clear water-based UV resistant coating for decking and other timbers where an anti-slip finish is required. Suredeck Anti Slip properties reduce the slippiness that usually occurs when untreated decking gets aged and damp. It has a PTV value of <35 making it a low slip risk to walk on in wet & dry conditions. Suredeck retains the natural wood effect and leaves a low sheen.

UV resistant and reduces fading
Suitable for tanalised wood
Maintains the natural effect of the wood

CLEAR
