

## APPLICATION INSTRUCTIONS - KEIM ALGICID

KEIM Algacid is an aqueous pre-treatment and protective agent against algae and fungi infestation.

### SURFACE PREPARATION

- All mould and fungal growth must be thoroughly removed by pressure washing and a stiff brush (steam clean where possible).
- Allow surfaces to dry before application of KEIM Algacid.

### MATERIAL APPLICATION

- Uniformly soak the surfaces with undiluted KEIM Algacid, by brush or flood coating
- Do not spray KEIM Algacid.
- It is not necessary to wash the surfaces after application of KEIM Algacid.
- Once the product has been allowed to act for at least 24 hours, KEIM coating systems can be applied onto the cleaned surface.
