PAINTS, PRIMERS AND SPECIALISED COATINGS

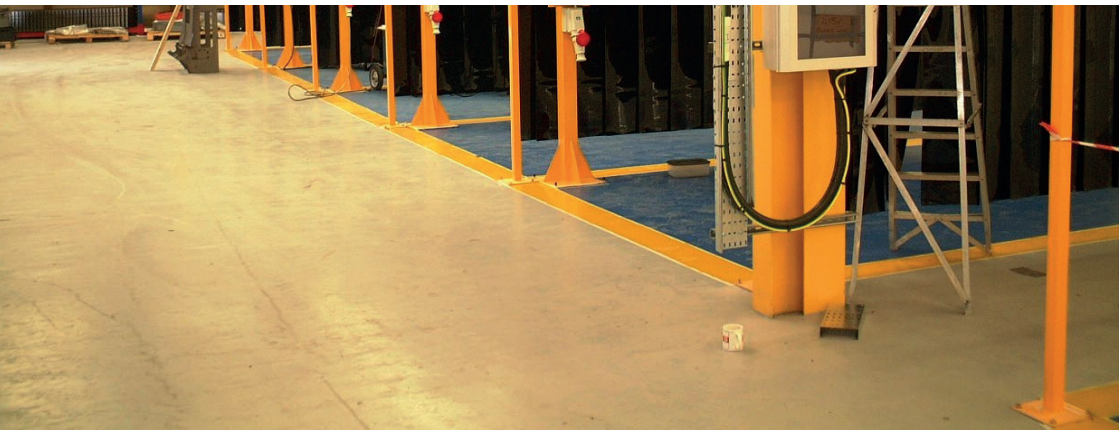
Profloor Plus CC (Cold Cure)

Profloor Plus CC gives all the properties of Coo-Var Profloor Plus, with the added benefit of being able to use it in cold conditions- no more waiting until the weather is perfect. This epoxy two-pack solvent free coating is designed to cure when the surface temperature is in the range of 0-10°C.



Profloor Plus FH (Fast Hardening)

If you need a fast-curing floor paint then the FH version of Profloor Plus may be for you. This epoxy two-pack coating has been designed to allow the laying and recoating of the surface within the same working day- saving you time and money, and is particularly valuable when rapid return to service is required. This paint achieves its best performance when the surface temperature is 15-20°C.
