### Additional information :

For the full text of the Hazard Statements mentioned in this Section, see Section 16.

### Section 4: First aid measures

| 4.1 Description of first aid measures |   |  |
|---------------------------------------|---|--|
| General notes                         | : | In all cases of doubt, or when symptoms persist, seek medical attention. |
|                                       |   | Never give anything by mouth to an unconscious person.                   |
|                                       |   | If unconscious place in recovery position and seek medical advice.       |
| If inhaled                            | : | Remove to fresh air, keep patient warm and at rest.                      |
|                                       |   | If breathing is irregular or stopped, administer artificial respiration. |
| In case of skin contact               | : | Remove contaminated clothing.  |

Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by Regulation (EU) No. 2015/830 - United Kingdom (UK)

| Revision Dat                            | e:  | 25-Feb-22                                 | Print Date : 21-Mar-22   |
|---|-----|---|--|
|   |     | Wash skin thorough<br>recognised skin cle | nly with soap and water or use<br>eanser.  |
|   |     | Do NOT use solven                         | ts or thinners.  |
| In case of eye contact                  | :   | fresh water, holding                      | enses, irrigate copiously with clean,<br>g the eyelids apart for at least 10<br>mmediate medical advice. |
| If swallowed                            | :   |   | llowed rinse the mouth with plenty of<br>erson is conscious) and obtain<br>al attention.                 |
|   |     | Keep at rest.                             |  |
|   |     | Do NOT induce voi                         | miting.  |
| Self-protection of the first aider      | :   | None.                                     |  |
| 4.2 Most important symptoms and effe    | ect | s, both acute and de                      | elayed   |
|   | :   | None.                                     |  |
| 4.3 Indication of any immediate med     | ica | attention and spec                        | ial treatment needed   |
|   | :   | None.                                     |  |
| Section 5: Firefighting measures        |     |   |  |
| 5.1 Extinguishing media                 |     |   |  |
| Suitable extinguishing media            | :   | Alcohol resistant fo spray/mist.          | am, CO2, powders and water   |
| Unsuitable extinguishing media          | :   | Water jet.                                |  |
| 5.2 Special hazards arising from the su | Jps | lance or mixture                          |  |
| Hazardous combustion products           | :   | Fire will produce de                      | ense black smoke.  |
|   |     | Exposure to decon hazard.                 | nposition products may cause a health  |
|   |     | Appropriate breat                         | ning apparatus may be required.  |
| 5.3 Advice for firefighters             | :   | Cool closed conta                         | iners exposed to fire with water.  |
|   |     | Do not allow run-of watercourses.         | ff from fire fighting to enter drains or   |
| Section 6: Accidental release measur    | es  |   |  |
| 6.1 Personal precautions, protective e  | equ | ipment and emerge                         | ncy procedures   |
|   | :   | Exclude sources of                        | ignition and ventilate the area.   |
|   |     | Avoid breathing vo                        | apours.  |
|   |     | Refer to protective                       | measures listed in Sections 7 and 8.   |
| 6.2 Environmental precautions           | :   | Do not allow to en                        | ter drains or watercourses.  |
|   |     | -   | aminates lakes, rivers or sewage,<br>e authorities in accordance with local                              |

Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by Regulation (EU) No. 2015/830 - United Kingdom (UK)

| Revision De                         | ate : | 25-Feb-22                    | Print Date: 21-Mar-22  |
|-------------------------------------|-------|------------------------------|--|
| 6.3 Methods and material for contai | nme   | nt and cleani                | ng up  |
|                                     | :     | absorbent n<br>diatomaced    | d collect spillage with non-combustible<br>naterials, e.g. sand, earth, vermiculite,<br>ous earth and place in container for disposal<br>o local regulations (see Section 13). |
|                                     |       | Clean prefe                  | rably with a detergent - avoid use of solvents.  |
| 6.4 Reference to other Sections     | :     | None.                        |  |
| Section 7: Handling and storage     |       |                              |  |
| 7.1 Precautions for safe handling   |       |                              |  |
| Advice on safe handling             | :     | concentration                | creation of flammable or explosive<br>ons of vapour in air and avoid vapour<br>on higher than the occupational exposure  |
|                                     |       |                              | the product should only be used in areas<br>all naked lights and other sources of ignition<br>excluded.  |
|                                     |       | Electrical ec<br>appropriate | uipment should be protected to the standard.   |
|                                     |       |                              | charge electrostatically: always use<br>ds when transferring from one container to   |
|                                     |       | •                            | nould wear anti-static footwear and clothing nould be of the conducting type.  |
|                                     |       | Isolate from                 | sources of heat, sparks and open flame.  |
|                                     |       | No sparking                  | tools should be used.  |
|                                     |       | Avoid skin a                 | nd eye contact.  |
|                                     |       |                              | halation of dust, particulates and spray mist<br>the application of this mixture.  |
|                                     |       | Avoid inhald                 | ition of dust from sanding.  |
|                                     |       | Smoking, ec<br>application   | ting and drinking should be prohibited in area.  |
|                                     |       | For personal                 | protection see Section 8.  |
|                                     |       | Never use p<br>vessel.       | ressure to empty: container is not a pressure  |
|                                     |       | Always keep<br>original one  | o in containers of same material as the  |
|                                     |       | Comply with                  | the health and safety at work laws.  |
|                                     |       | Do not allow                 | to enter drains or watercourses.   |
| Advice on protection against        | :     | Vapours are                  | heavier than air and may spread along floors.  |
| fire and explosion                  |       | Vapours ma                   | y form explosive mixtures with air.  |

Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by Regulation (EU) No.2015/830 - United Kingdom (UK)

Revision Date : 25-Feb-22

Print Date: 21-Mar-22

## 7.2 Conditions for safe storage, including any incompatibilities

| Requirements for storage :<br>areas and containers | Store in accordance with the Dangerous Substances and<br>Explosive Atmospheres Regulations, 2002, (DSEAR). The<br>requirements are given in the HSE Approved Code of<br>Practice and Guidance, Storage of Dangerous<br>Substances: DSEAR. |
|--|---|
| Notes on joint storage :                           | Store away from oxidising agents, from strongly alkaline and strongly acid materials.   |
| Additional information on :                        | Observe label precautions.  |
| storage conditions                                 | Store between 5°C and 25°C in a dry, well ventilated place away from sources of heat and direct sunlight.   |
|  | Keep container tightly closed.  |
|  | Keep away from sources of ignition.   |
|  | No smoking.   |
|  | Prevent unauthorised access.  |
|  | Containers which are opened must be carefully resealed and kept upright to prevent leakage.   |
|  | The principles contained in the HSE guidance note,<br>Chemical Warehousing: The Storage of Packaged<br>Dangerous Substances, should be observed when storing<br>this product.   |
|  |   |

## 7.3 Specific end use(s)

: None.

## Section 8: Exposure controls/personal protection

### 8.1 Control parameters

Limits for occupational exposure and/or biological limit values.

| Chemical name                                    | Physical state | LTEL - 8 | 3hr TWA | STEL - | 15min | Notes      |
|--|----------------|----------|---------|--------|-------|------------|
|  |                | ppm      | mg/m³   | ppm    | mg/m³ |            |
| Low Aromatic White Spirit                        |                |          | 1200    | 150    |       |            |
| White Spirit                                     |                |          | 350     |        |       |            |
| naphtha (petroleum),<br>hydrotreated heavy (D40) |                |          | 350     |        |       |            |
| xylene   |                | 50       | 220     | 100    | 441   | Sk, BMGV   |
| 2-methoxy-1-methylethyl<br>acetate               |                | 50       | 274     | 100    | 548   | Sk         |
| 2-ethylhexanoic acid,<br>zirconium salt          | as Zr          |          | 5       |        | 10    | NAOSH(Ire) |
| hydrocarbons, c9,<br>aromatics                   |                |          | 100     |        |       |            |
| cobalt bis(2-<br>ethylhexanoate)                 | as Co          |          | 0.1     |        |       | Sen        |
| ethylbenzene                                     |                | 100      | 441     | 125    | 552   | Sk         |

Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by Regulation (EU) No.2015/830 - United Kingdom (UK)

Revision Date: 25-Feb-22

Print Date : 21-Mar-22

| n-butyl acetate      | 150 | 724 | 200 | 966 |    |
|----------------------|-----|-----|-----|-----|----|
| 1-methoxy-2-propanol | 100 | 375 | 150 | 560 | Sk |

LTEL - Long Term Exposure Limit, STEL - Short Term Exposure Limit, TWA - Time-Weighted Average.

ppm - parts per million by volume, mg/m<sup>3</sup> - milligrams per cubic metre.

BMGV - Biological Monitoring Guidance Values are given in Table 2 of EH40/2005 Workplace exposure limits. Carc - Capable of causing cancer and/or heritable genetic damage.

Sen - Capable of causing occupational asthma.

Sk - Can be absorbed through the skin. Dermal absorption may lead to systemic toxicity.

## 8.2 Exposure controls

## 8.2.1 Appropriate engineering controls

| General advice                      | :   | Provide adequate ventilation.  |
|-------------------------------------|---|--|
|                                     |   | Where reasonably practicable this should be achieved<br>by the use of local exhaust ventilation and good general<br>extraction.                      |
|                                     |   | If these are not sufficient to maintain concentrations of particules and solvent vapour below the OEL, suitable respiratory protection must be worn. |
| 8.2.2 Personal protection equipment |   |  |
| Respiratory protection              | :   | If workers are exposed to concentrations above the exposure limit they must use appropriate, certified respirators.                                  |
| Hand protection :                   | There is no one glove material or combination of materials that will give unlimited resistance to any individual or combination of chemicals. |  |
|                                     |   | For prolonged or repeated handling, use Polyvinyl<br>Alcohol (PVA) or Viton Rubber (FluorRubber).  |
|                                     |   | The breakthrough time must be greater than the end use time of the product.  |
|                                     |   | The instructions and information provided by the glove manufacturer on use, storage, maintenance and replacement must be followed.                   |
|                                     |   | Gloves should be replaced regularly and if there is any sign of damage to the glove material.  |
|                                     |   | Always ensure that gloves are free from defects and that they are stored and used correctly.   |
|                                     |   | The performance or effectiveness of the glove may be reduced by physical/chemical damage and poor maintenance.                                       |
|                                     |   | Barrier creams may help to protect the exposed areas of<br>the skin, they should however not be applied once<br>exposure has occured.                |
|                                     |   |  |

Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by Regulation (EU) No.2015/830 - United Kingdom (UK)

| Revision Date                         | ∋: | 25-Feb-22                     | Print Date : 21-Mar-22  |
|---------------------------------------|----|-------------------------------|---|
| Eye protection                        | :  | Use safety eyewed<br>liquids. | ar designed to protect against splash of                                  |
| Skin protection                       | :  |                               | vear anti-static clothing made of<br>nigh temperature resistant synthetic |
| 8.2.3 Environmental exposure controls |    |                               |   |
| General advice                        | :  | Do not allow to en            | ter drains or watercouses.  |

## Section 9: Physical and chemical properties

## 9.1 Information on basic physical and chemical properties

|     | Appearance - Physical state                  | : | Liquid.                               |
|-----|--|---|---------------------------------------|
|     | - Colour                                     | : | Various.                              |
|     | Odour  | : | Characteristic. Pungent.              |
|     | Odour threshold - Lower                      | : | Not determined.                       |
|     | - Higher                                     | : | Not determined.                       |
|     | рН   | : | Not determined.                       |
|     | Melting point/freezing point (°C)            | : | Not determined.                       |
|     | Initial boiling point and boiling range (°C) | : | 150-200 760 mmHg                      |
|     | Flash point (°C)                             | : | 36                                    |
|     | Evaporation rate                             | : | 65 (EtEt=1)                           |
|     | Flammability/explosive limits - Lower (%)    | : | 0.7                                   |
|     | - Higher (%)                                 | : | 7                                     |
|     | Vapour pressure                              | : | <5 hPa 20.0                           |
|     | Vapour density (air=1)                       | : | Heavier than air.                     |
|     | Relative density (g/ml)                      | : | 0.90-1.18                             |
|     | Solubility(ies)                              | : | Miscible with organic solvents.       |
|     | Partition coefficient                        | : | Not determined.                       |
|     | Auto-ignition temperature (°C)               | : | >230                                  |
|     | Decomposition temperature (°C)               | : | Not determined.                       |
|     | Viscosity                                    | : | ~3.0 poise.                           |
|     | Explosive properties                         | : | May form explosive mixtures with air. |
|     | Oxidising properties                         | : | Not determined.                       |
| 9.2 | Other information                            |   |                                       |
|     | Nono   |   |                                       |

None.

Section 10: Stability and reactivity 10.1 Reactivity

: No data available.

Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by Regulation (EU) No.2015/830 - United Kingdom (UK)

| 10.2 Chemical stability                 | : | Stable under recommended storage and handling conditions. (See Section 7).   |
|---|---|--|
| 10.3 Possibility of hazardous reactions | : | Keep away from oxidising agents, strongly alkaline<br>and strongly acid materials in order to avoid<br>exothermic reactions. |
| 10.4 Conditions to avoid                | : | When exposed to high temperatures may produce hazardous decomposition products.  |
| 10.5 Incompatible materials             | : | No data available.   |
| 10.6 Hazardous decomposition products   | : | Carbon monoxide and dioxide, smoke, oxides of nitrogen.  |

### Section 11: Toxicological information

There are no data available on the mixture itself.

The mixture has been assessed following the conventional method of the Classification, Labelling and Packaging of Substances and Mixtures Regulation (EC) No. 1272/2008, (CLP) and classified for toxicological hazards accordingly.

See Sections 2 and 3 for details.

## 11.1 Information on toxicological effects

Exposure to component solvents vapours concentration in excess of the stated occupational exposure limit may result in adverse health effects such as mucous membrane and respiratory system irritation and adverse effects on kidney, liver and central nervous system.

Symptoms and signs include headache, dizziness, fatigue, muscular weakness, drowsiness and in extreme cases, loss of consciousness.

Solvents may cause some of the above effects by absorption through the skin.

Repeated or prolonged contact with the mixture may cause removal of natural fat from the skin resulting in non-allergic contact dermatitis and absorption through the skin.

The liquid splashed in the eyes may cause irritation and reversible damage.

Ingestion may cause nausea, diarrhoea and vomiting.

This takes into account, where known, delayed and immediate effects and also chronic effects of components from short-term and long-term exposure by oral, inhalation and dermal routes of exposure and eye contact.

### Section 12: Ecological information

There are no data available on the mixture itself.

Do not allow to enter drains or watercourses.

| 12.1 Toxicity                           | : | No data available. |
|---|---|--------------------|
| 12.2 Persistence and degradability      | : | No data available. |
| 12.3 Bioaccumulative potential          | : | No data available. |
| 12.4 Mobility in soil                   | : | No data available. |
| 12.5 Results of PBT and vPvB assessment | : | No data available. |
| 12.6 Other adverse effects              | : | No data available. |

Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by Regulation (EU) No.2015/830 - United Kingdom (UK)

Revision Date: 25-Feb-22

Print Date: 21-Mar-22

### Section 13: Disposal considerations

#### 13.1 Waste treatment methods

Do not allow to enter drains or watercourses.

The European List of Waste classification of this product, when disposed of as waste, is

Waste Code:Name of Waste (according to Commission Decision 2000/532/EC):08 01 11\*Waste paint and varnish containing organic solvents or other dangerous<br/>substances.

If this product is mixed with other wastes, the original waste product code may no longer apply and the appropriate code should be assigned.

For further information contact your local waste authority.

Using information provided in this safety data sheet, advice should be obtained from the local waste authority on the classification of empty containers.

Empty containers must be scrapped or reconditioned.

Dispose of containers contaminated by the product in accordance with local or national legal provisions.

### Section 14: Transport information

| 14.1 UN number                  |   |
|---------------------------------|---|
| ADR/RID/ADN                     | : 1263  |
| IMDG                            | : 1263  |
| ICAO                            | : 1263  |
| 14.2 UN proper shipping name    | : PAINT   |
| 14.3 Transport hazard class(es) |   |
| ADR/RID/ADN Class               | : 3   |
| ADR/RID/ADN Class               | : Class 3: Flammable liquids.                           |
| ADR Label number                | : 3   |
| IMDG Class                      | : 3   |
| ICAO Class/Division             | : 3   |
| Transport labels                |   |
| 14.4 Packing group              |   |
| ADR/RID/ADN                     | : 111   |
| IMDG                            | : 111   |
| ICAO                            | : 111   |
| 14.5 Environmental hazards      | : Environmentally Hazardous Substance/Marine Pollutant. |

Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by Regulation (EU) No.2015/830 - United Kingdom (UK)

Revision Date: 25-Feb-22

Print Date: 21-Mar-22

## 14.6 Special precautions for user

| ADR Tunnel Restriction Code | : | (D/E)    |
|-----------------------------|---|----------|
| IMDG EmS                    | : | F-E, S-E |
| IMDG Stowage Category       | : | А        |

Always transport in closed containers that are upright and secure.

Ensure that persons transporting the product know what to do in the event of an acident or spillage.

## 14.7 Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code

: Not applicable.

## Section 15: Regulatory information

## 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

The information in this Safety Data Sheet is required pursuant to :

- Registration, Evaluation, Authorisation and Restriction of Chemicals, Regulation (EC) No. 1907/2006, (REACH).
- Classification, Labelling and Packaging of substances and mixtures, Regulation (EC) No. 1272/2008, (CLP).
- The Dangerous Substances and Explosive Atmospheres Regulations, 2002, (DSEAR).
- The Control of Substances Hazardous to Health Regulations, 2002, (COSHH).
- The Health and Safety at Work etc Act, 1974, (HSWA).

- The European Chemicals Agency (ECHA) Guidance on the compilation of safety data sheets, Version 2.1.
- CEPE Guideline for Safety Data Sheets, 9th Edition.
- HSE Approved Code of Practice and Guidance, Dangerous Substances and Explosive Atmospheres.
- HSE guidance note, Chemical Warehousing: The Storage of Packaged Dangerous Substances.
- HSE publication, EH40/2005 Workplace exposure limits.

## 15.2 Chemical safety assessment

No Chemical Safety Assessment has been carried out for this mixture by the supplier.

## Section 16: Other information

## Full text of Hazard Statements referred to in Section 3.

- H225 : Highly flammable liquid and vapour.
- H226 : Flammable liquid and vapour.
- H302 : Harmful if swallowed.
- H304 : May be fatal if swallowed and enters airways.
- H312 : Harmful in contact with skin.

Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by Regulation (EU) No.2015/830 - United Kingdom (UK)

## Revision Date: 25-Feb-22

Print Date: 21-Mar-22

- H315 : Causes skin irritation.
- H317 : May cause an allergic skin reaction.
- H319 : Causes serious eye irritation.
- H332 : Harmful if inhaled.
- H335 : May cause respiratory irritation.
- H336 : May cause drowsiness or dizziness.
- H360F : May damage fertility.
- H361d : Suspected of damaging the unborn child.
- H372 : Causes damage to organs through prolonged or repeated exposure.
- H373 : May cause damage to organs through prolonged or repeated exposure.
- H400 : Very toxic to aquatic life.
- H411 : Toxic to aquatic life with long lasting effects.
- H412 : Harmful to aquatic life with long lasting effects.

## **Revision history**

| Date     | Version | Amendments                            |
|----------|---------|---------------------------------------|
| 25/02/22 | 4.70    | Changes to Sections 2.2, 3.2, 8.1, 16 |
| 09/12/20 | 4.60    | Changes to Section 3.2                |
| 10/12/18 | 4.50    | Changes to Sections 2.1, 3.2, 8.1, 16 |

The information in this Safety Data Sheet is based on the present state of knowledge and current legislation.

It provides guidance on health, safety and environmental aspects of the product and should not be construed as any guarantee of technical performance or suitability for particular applications.

The product should not be used for purposes other than those shown on the Technical Data Sheet without first referring to the supplier and obtaining written handling instructions.

As the specific conditions of use of the product are outside the supplier's control, the user is responsible for ensuring that the requirements of relevant legislation are complied with.

The information contained in this Safety Data Sheet does not constitute the user's own assessment of workplace risks, as required by other health and safety legislation.
