

# E-SERIES MOBILE VACUUM UNIT LE30

## E-SERIES MOBILE VACUUM UNIT LE30

Deliver a cleaner working environment

Maximise the efficiency of your sanding process

30 litre dust collection capacity

Compact design

Self cleaning

Intelligent control

# Product Sheet

## E-SERIES MOBILE VACUUM UNIT LE30

### Features and Benefits

Advanced composite materials

Optimum operator comfort

Self-cleaning dual filtration

Prevents filter clogging

Compact design

Portable throughout the bodyshops

### Substrates

Fillers

Primers

Top Coats

Clear Coats

Fibre Glass

Gel Coat

Wood Coatings

### Applications

Dust extraction

### Suited for

Automotive Refinishing

Decorative

### Technical Specifications

|                            |                  |
|----------------------------|------------------|
| Weight                     | 10,5 kg          |
| Noise Level EN 60704-3     | 67 dBA           |
| Voltage                    | 220 V            |
| Mains frequency            | 50 / 60 Hz       |
| Power                      | 1200 W           |
| Power Output               | 2400 W           |
| Filter class EN 60335-2-69 | L                |
| Class of Protection        | IP X 4           |
| Filter Surface Area        | 1 m <sup>2</sup> |
| Container Volume           | 30 l             |
| Dustbag capacity           | 5 kg             |
| Hose Connector             | 29 mm            |
| Package Qty.               | 1                |
