

*Technical Tapes for the
Professional Trades*

Washi rice paper technology for thin, super flat edge line

PRECISION

masking tape
for a sharper
paint line

Ideal for precision critical paintwork

Excellent UV resistance – clean
removal after 90 days (indoor)
or 60 days (outdoor)

Roll width 25, 38, 50mm

LOW TACK

masking tape
for delicate
surfaces

Low tack acrylic adhesive ideal for
delicate interior surfaces

Excellent UV resistance – clean
removal after 21 days (indoor)

Roll width 25, 38, 50mm

Total thickness micron	90 micron
Tensile strength kg/cm	4kg/cm
Adhesion to steel g/cm	140g/cm
Adhesive type	Acrylic water based
Elongation to break	5%
Temperature resistance	120° for 60 min

Total thickness micron	85 micron
Tensile strength kg/cm	4kg/cm
Adhesion to steel g/cm	120g/cm
Adhesive type	Acrylic water based
Elongation to break	5%
Temperature resistance	100/30°C/min
