

REFERENCE

Tesco, Portlaoise, Ireland

Application Field

- Floor coating – water vapour diffusion open systems

Structure Type

- Car Park

Brief Description

A new four level multi storey car park was constructed in a shopping centre in Portlaoise in County Laoise, Ireland.

Main Problem and Requirements

One of the levels constructed was for Tesco Ireland and required 3000m² of anti-slip floor coatings. The car park decks were coated in Epoxy BS2000 Clear and a Remmers Epoxy BS3000 SG slip resistant system was applied to the walkways and parking bays. The soffits were coated with Remmers Concrete Acrylic which was used for its excellent anti-carbonation characteristics and resistance to weathering.

Products and Systems Used

Concrete Acrylic
Epoxy BS2000 Clear
Epoxy BS3000 SG

Client

Tesco, Ireland

Installer

Joseph Hughes
