

ACROLON™ 1850

HIGH BUILD ISOCYANATE FREE FINISH

Introducing the next generation in non-isocyanate topcoats; utilising new technology, Acrolon 1850 has been principally designed for the offshore and fabric maintenance markets, where the use of isocyanates is restricted, but good coverage is desired with little downtime.

MEETING THE NEED

Acrolon 1850 is an isocyanate free coating solution, with high gloss retention properties, for exterior exposed surfaces where retention of gloss is required, and the use of isocyanate products is prohibited or undesirable. With its resistance to water spotting, and good performance against the effects of weathering and UV rays, Acrolon 1850 offers a durable coatings solution.

FEATURES

- High build properties
- Durable
- Isocyanate free

SINGLE COAT APPLICATION

Acrolon 1850 has been formulated specifically to achieve full coverage in a single coat by brush, allowing rapid return to service and reduced downtime, making it the product of choice when a quick and easy application is the key to success.

BENEFITS

- Full coverage obtained in a single coat by brush
- Can be applied by brush or single-leg airless spray
- Reduced costs and downtime
- Good gloss retention
- Good results in UV and weathering performance
- Fast resistance to water spotting
- Prolongs service life
- Can be used when isocyanate products are precluded or are undesirable. Preferable towards regulations
