

Polymeric Surface with Sports-Cote™ Moisture Cure Applied to Surface

Not to scale

DESIGNED FOR APPLICATION TO POLYMERIC SURFACES

The **Sports-Cote™ Moisture Cure** uses flexible and highly durable polyurethane technology providing optimum longevity for polymeric tennis and netball courts, hockey and five-a-side soccer pitches and Multi-Use Games Areas (MUGAs).

Sports-Cote™ Moisture Cure utilises UV resistant polyurethane technology, is readily applied by airless spray and is available in a range of colours.

Sports-Cote™ Moisture Cure is supplied in Extra Texture and Full Texture finishes.

- Airless spray application for even and economic coating
- Quick cure formulation to reduce facility downtime
- Intense colours for an aesthetically pleasing surface
- Abrasion resistant for outstanding durability and performance
- Very good chemical resistance - withstands degradation by common pollutants
- Slip resistant - meets the dry and wet requirements of the ITF and AENA
- Unaffected by common cleaning agents - no surface deterioration during maintenance
- UV-resistant for maximum colour retention

Sports-Cote™ Moisture Cure protects and enhances the appearance of polymeric sport and play surfaces whilst imparting slip resistance characteristics to comply with the requirements of the ITF and AENA..
