

Description

Centrecoat Temporary Floor Protection Sheet are best used to protect floors and surfaces while contractors decorate internally. Available in a flat black finish, these protective floor sheets make the process of redecorating risk free with minimal effort.

Centrecoat Temporary Floor Protection Sheets are ideal for floor protection, door protection, window/curtain walling protection and worktop protection. A quality alternative to Correx, Anitnox, and Proplex sheeting.

If your circumstance requires sheets that can withstand high foot traffic or longer project durations, call our technical team on 01462 421333 to discuss your individual project. Also available custom printed upon request.
