Substrate:	Cast Concrete

### Summary

Various unsightly rust staining on cast concrete columns in a car park required cleaning. [Centrecoat R13 Rust Remover](#) was applied to the affected areas, and after a 15 minute dwell time the surface was thoroughly rinsed with cold water.

All rust stains were removed as well as associated soiling, making the surface looking as clean as 'new'.

[Centrecoat R13 Rust Remover](#) is a powerful acid treatment designed to remove any surface oxidation on cast concrete, GRC, tile, cement render, porcelain, natural stone.
