If the product is intended for professional use and not covered by the Industrial definition above. Professional use is defined as the use of Dichloromethane paint remover outside of a unit or workshop, where paint stripping normally takes place:

- 1) If you are undertaking the work you must inform us that the persons using the product have undergone training from an approved HSE trainer, and have passed the on line test .
- 2) If you are selling on to a Professional User you need to keep records as in 1) above or retain your own declaration from your customer.

IT IS ILLEGAL FOR CONSUMERS TO USE THIS PRODUCT

Please return signed form to orders@promain.co.uk. If you require any further information or clarification on the new regulations please contact our technical team on 01462 421333.

Please advise us of any changes to your circumstances or key contacts during this validation period.

Issue 8.—Valid 1st March 2019 to 29th February 2020
